The Old Fire Station Surgery, Beverley

Lead Practice Nurse – 30 hours per week to full time - Monday to Friday

(Successful candidate will be required to work until 6pm three days a week)

We are offering an opportunity to join our long-established, independent, stable, friendly and traditional 7 doctor surgery at the heart of Beverley, East Yorkshire. We place emphasis on practising good medicine, creating a well-managed workload and making work an enjoyable and fulfilling experience. The positive culture of the practice runs through the highly experienced and dedicated management team.

Our upgraded premises is partner owned which allows us to provide a full range of traditional and innovative services, including community dermatology, phototherapy, specialist respiratory services and are piloting an ENT service in the practice. We support a wide range of teaching, serving a growing patient base of over 11,000.

We are ideally looking for an experienced and enthusiastic Lead Nurse with excellent clinical skills and a General Practice background to lead our nursing team of 6 Nurses/Health Care Assistants.

You must be confident, have a friendly and professional manner and demonstrate excellent communication, leadership and initiative in order to fulfil the role. Appropriate guidance, training and support will be provided as needed to our systems and procedures.

This may also offer a developmental role for the right candidate who doesn't meet all the criteria, and we would consider working with an otherwise strong candidate by supporting with appropriate guidance.

The main responsibilities of the role are: -

- Lead Nurse – to support guidance, training and development of other members of the nursing team;
- Support the practice performance and achievement of Quality & Outcomes Framework (QOF);
- Practice policies and systems - take an active lead in preparing clinical Practice Policies;
- Infection control clinical lead;
- Treatment Room (to include Travel Vaccinations, Baby Clinic Immunisations, Smears, Family Planning, ECGs and wound management);
- Lead Vaccination Campaigns: Planning and managing vaccination programmes, incl flu, shingles and proactively support national campaigns and point of contact for vaccination queries;
- Chronic Disease Management (to include Asthma/COPD, Hypertension, Diabetes and CHD);
- ARTP trained and Mentorship qualification desirable
- Participate in clinical audits, service evaluations and quality improvement initiatives
- Protocol Development: Reviewing, developing, and implementing clinical systems, protocols and guidelines (e.g., chronic disease management, infection control)
- Manage clinical supply and vaccine stocks effectively and attend weekly management meetings.

Nurse mentoring and prescribing skills would be advantageous, and we would be happy to support development of additional skills including clinical skills where necessary.

- Salary dependant on experience within Band 7 AfC range
- NHS pension scheme benefits are available together with free on-site parking

Closing date on Monday 12th October Noon 2026, expected start date as soon as possible. Please contact Richard.Langthorp@nhs.net (Practice Manager) and Carla.Coulson@nhs.net (Deputy Practice Manager) for further information.

All applications should be made on the Job Application form available on the practice website. Direct line 01482 458220/21
